Oppression!!! The appeal of Captain Perry, (late editor of the *Argus*), to the people of England; containing a justification of his principles and conduct which have rendered him obnoxious to ministerial tyranny; with a few remarks on the people of France, to refute the base calumnies of those interested in this ruinous crusade against the liberty and happiness of man. To which is added a development of some of the mysteries of the spy trade, proving the detestable iniquity of the practice, and the necessity of its immediate abolition. Persia.

Persia is used as an entry for the state now officially designated as Iran. In this catalog, Iran is used only as a subject heading to cover the historic Iranian peoples which stretch from Mesopotamia to India.

Beginning with March 22, 1925, the Persian government asked that its actual designation, Iran, be substituted in diplomatic correspondence and conversation for its conventional name in English speaking countries. The United States Board on Geographic Names voted, on Feb. 13, 1925, to continue the use of conventional English names for foreign countries, except where the use of local official names is clearly preferable.
